About CABE

CABE' has a vision of "Biliteracy & Educational Equity for All." We strongly believe that bi-or multi-lingualism and literacy in two or more languages are worthwhile goals for everyone in California. Our organizational vision is of a future in which language is not a barrier to achievement and every student reaches their maximum potential.

Incorporated in 1976, our over 6,500 members have chosen to become powerful voices for the 1.6 million English Learners in California (25% of the student population speaking over 100 languages). Our advocacy efforts ensure that the instructional needs of English Learners are taken into account and that instructional programs are effective

and of high quality. As second language learners learn English or other languages, they face many challenges in our educational system. The services we provide through our many professional development opportunities assist educators and parents in providing more equitable instructional programs for this diverse student population.

As an organization we embrace the following Essential Strategies

- Collaborate and build partnerships with families, schools, communities, businesses and government and other institutions serving diverse student populations.
- Provide preparation for moral and ethical leadership.
- Disseminate relevant information based on sound educational theory and research.
- Conduct professional development opportunities to share, expand and build upon the expertise of parents, educators, administrators, community leaders and policy makers.
